CHICAGO
presents

Sherri Sebastion, from Fragrance West, will explore the relation of the scent of **flavors and fragrances in our everyday experience**. Take a moment to step away from formulations, ingredients, and paperwork to **reconnect with your original inspiration** for working in the industry. Embrace new ways to reconnect with the less tangible, yet instinctually understandable nature of aromatic compositions.

This will be a joint meeting with the Society of Cosmetic Chemists. Attendees will have free parking and entrance to the arboretum on the day of the event.

TUESDAY, APRIL 11, 2017
